

CipherLab Launches the New CP50 Windows Industrial Mobile Computer

Designed to enhance productivity in field mobility, transportation, and warehouse environments with multiple wireless communications, large memory capacities, and rugged designs.

Taipei, Taiwan –XXXX, 2012 - CipherLab, an established leader in Automatic Identification and Data Capture launched the CP50 Industrial mobile computer today. The CP50 has specific designs to assist the harsh environments of the field, on the road, and in the warehouse. It comes fully equipped with a sizable 2 GB flash memory, which allows for mega storage of data. Top it off with multiple wireless communication options which enable field workers to have a wide range of connections on the field. Your field workers would surely be well prepared with this powerful device.

“We understand that the environments in field mobility, transportation and warehouse can be quite rough, so we really wanted to develop a mobile computer that is dependable and able to withstand harsher environments.” explained Sherman Chuang, President of CipherLab. “We truly believe CP50 has the capability to accomplish various tasks in more challenging environments.”

Along with all of its advantages, the rugged design of CP50 with IP65 is proven to withstand harsh environments. It passed 1.5 m drops onto concrete and 1,000 tumbles at 0.5 m ensuring durability. It also incorporates software tools for easy customization from CipherLab Smart Shells, Signature Capture, to FORGE Application Generator. The CP50 is built with both quality and toughness.

For business with field mobility and transportation needs, CP50 gives you the capability to satisfy a wide range of tasks under rough environments. The CP50 features:

- Windows® Embedded Handheld 6.5
- A high capacity of 2 GB data memory
- Flexible wireless options including WLAN, Bluetooth®, and 3.8G HSPA+ with

GPS/AGPS

- 1D laser, 2D Imager, and 13.56 MHz RFID reader options
- Rugged designs IP65, 1.5 m drops onto concrete, and 1000 tumbles at 0.5 m
- Built in 5 megapixel autofocus camera
